How will your students get from today to graduation?

What are the tools students need to succeed in your course and beyond?
Undergraduate Retention is committed to supporting all students on their path to graduation. We strive to enhance student success, which is a combination of academics, wellness and engagement, by encouraging students to identify their individual strengths and take full advantage of campus resources designed to help them succeed.

How can we partner for student success?
Undergraduate Retention and the Center for Faculty Excellence are piloting a student success workshop series. These workshops are designed to enhance behaviors and habits key to success in college. Choose one of the workshops below and we will come to your class to deliver a 50 minute, interactive presentation designed to promote student success in your class and beyond.

Student Success Workshops (Choose one of the following):

1. **Utilizing University Resources**
   Where is the Writing Center? Do students need an appointment to go to Counseling & Wellness Services? What do I do during an academic advising appointment? This workshop will provide students with an overview of the many resources available at Carolina as well as strategies to take full advantage of these resources. This workshop may be especially helpful for classes with a high enrollment of first year students.

2. **Academic Resiliency and Self-Advocacy**
   Successful students bounce back from academic set-backs. This workshop will help students to consider, develop and apply their own resiliency characteristics toward academic persistence. Additionally, students will learn how to self-advocate by learning how to seek out and utilize academic resources.

3. **Setting Goals and Developing Habits for Academic Success**
   Research shows that successful students set clearly defined and obtainable goals. Students in this workshop will engage in goal setting activities as well as learn about the techniques that allow successful students to be most effective and efficient with their time and energy. Students will leave this workshop with specific tools and strategies for active listening, note taking, reading and studying.

4. **Time and Motivation: Managing the Most Valuable Student Resources**
   Poor time management and procrastination are two of the biggest challenges students face. This workshop will provide students with direct instruction on how effectively manage their time and avoid procrastination and sustain academic motivation.

5. **Innovate, Research, and Discover: How to Make the Most of a Research University**
   What is the value of a liberal arts education? What are the unique research and learning opportunities available to undergraduates? In this workshop, students will consider what it means to be part of a community of scholars, how to engage with faculty members and how to get the most from the myriad learning opportunities offered at Carolina.

To register

To arrange for a workshop in your class, email Candice Powell, Retention Specialist, c.powell@unc.edu with your name, course title, course location, requested date, number of students and workshop number, or fax this completed form to 919.843.6557.

1. Your name
2. Course Title
3. Course Location
4. Requested Date
5. Number of Students
6. Workshop Number

Please allow us as much advance notice as possible in order to secure your desired date, time and workshop topic. We look forward to working with you.

The goal of the Student Success Workshop program is to support faculty excellence, complement course content and to promote successful student academic development. This series also provides a desirable alternative to cancelling class when instructors are unavailable or out of town.
